Sustainably
sharing Nature's
remedies to
enrich the lives of
those around us.

Our Story

We combine high quality natural ingredients with our USDA Organic CBD to give your body the best that nature has to offer. We control everything from seed to self in order to provide all-natural products you and your clients can trust.

WAAYB was founded in January 2017 with the goal of creating the highest quality CBD products on the market. When we began we quickly realized that the CBD space offered very little information about how hemp was being grown and processed. This made it difficult to

decipher if you were getting a quality product or something with traces of pesticides, heavy metals and solvents. We decided our products would be created with the best hemp, grown organically in the perfect climate, extracted without toxic solvents, and mixed with quality ingredients. The only way to accomplish this was to oversee every aspect of production from planting, harvesting, extracting and bottling. By controlling everything from seed to shelf, we give you the assurance that everything we make is from our USDA Certified Organic hemp, lovingly raised, cultivated and processed 100% by us in Colorado.

HEMP

Hemp extract is created by processing hemp plants to concentrate the cannabinoids and terpenes found in the leaves and flowers.

CBD is one of the most prevalent cannabinoids found in hemp and has been used to **calm** nerves, **focus** attention, **recover** from inflammation and **support** healthy sleep cycles.

Scientists found that the benefits of CBD are more pronounced when it can work together with the other cannabinoids found in hemp, a phenomena called the **entourage effect**. For this reason, all our products are made with **full-spectrum hemp extract**.

**USDA ORGANIC CBD
formulated to bring
you nature's best.**

100% of our hemp is hand harvested to reduce the amount of material wasted, prevent diesel and exhaust from contaminating the product, and reduce our carbon footprint.

We use supercritical CO₂ extraction method. This allows us to extract the beneficial cannabinoids without the use of harsh solvents.

CBD BENEFITS

Below are the top benefits our customers get from using our CBD¹

- 1 Reduction in pain caused from inflammation
- 2 Improved pet anxiety & joint pain
- 3 General improvement of health
- 4 Lower stress & anxiety
- 5 Improved sleep

1. Per 150 person customer survey

Not all CBD is created equally.

All our material is hand shucked to remove the stalks and leaves ensuring no unwanted by-products are in our final product.

Our hemp extract is distilled to remove any impurities. Our average distillate is 85% cannabinoids.

Because we use the highest quality CBD, our customers have a better experience than the typical CBD user, which is why 92% of customers are likely to extremely likely to recommend our products to friends or colleagues.¹

What they said about us?

**DR. SARAH BALLANTYNE
(THE PALEO MOM)**

It's true that not all CBD products are created equal, we choose One Farm CBD products because they are top-quality, USDA Organic, and because One Farm is transparent about the methods in which they grow, harvest, extract and produce every single one of their own products. This is the CBD company we use and love.

**KYLE KINGSBURY
GOODTHING GROUP**

One Farm has created the best hemp products I've ever used. Using a USDA certified hemp farm and 100% CO2 extraction product they start with the best and finish with the best. It is safe enough for every member of family to use. It has helped me alleviate the pain from old nagging injuries, reduced systemic inflammation, and calm me at night enhancing my sleep. Simply put-One Farm created the best CBD products on the planet and they are a mainstay in my supplement cabinet."

**NEIL SIVULA
DANCING PAWS ANIMAL
WELLNESS CENTER**

As a Holistic Veterinarian, we have tried a number of Hemp products in our practice. The WAAYB pet product has been extremely helpful in the management of problems like arthritis, seizures, digestive issues, and anxiety in our patients. The product is both affordable and easy to administer. Highly recommended!
